

Actively managed by the award-winning Foresight Capital Management team, the FP Foresight Global Real Infrastructure Fund ("the Fund" or "GRIF") invests in global real infrastructure and renewable energy companies.

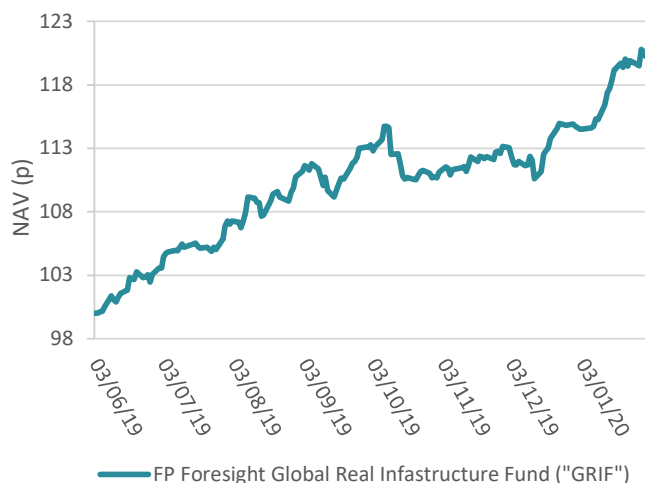

Investment Objectives

- To provide growth of more than 3% per annum above the rate of UK inflation (CPI) over any five year period and provide investors with quarterly dividend distributions
- To invest only in companies that we believe deliver a net social or environmental benefit and meet the ten principles of the United Nations Global Compact

Investment Philosophy

- Invest exclusively in the publicly traded shares of companies that own or operate real infrastructure or renewable energy assets across the world
- Provide investors with a globally exposed portfolio with a low correlation to equity market cycles and which delivers a steady return
- Invest in companies that provide essential services allowing the global economy to function in a sustainable manner while also addressing changing social and demographic requirements
- Target an underlying portfolio characterised by long-term contracts with highly credit worthy counterparties and which benefits from inflation linkage
- Actively manage the portfolio to maximise income over the long term
- Regularly monitor the portfolio companies against a predefined set of criteria to ensure they continue to meet our sustainability requirements

Fund Performance (Since Inception)

Details of the Fund

Fund Name:	FP Foresight Global Real Infrastructure Fund
Fund Type:	Open-Ended Investment Company
Investment Manager:	Foresight Group LLP
Regulatory Status:	FCA Authorised
IA Sector:	Global

Management Commentary

January was an excellent month for performance. Net of foreign exchange impact, the Fund delivered a total return of 4.77% compared to -0.62% for global equities priced in Sterling (FTSE All World Index, GBP). Performance was primarily driven by the global renewables allocation with positive developments across all of the major sectors in what proved to be a strong month globally for real infrastructure asset owning and operating companies.

There was notable good news at three of the Fund's top ten holdings during the month. Innergex, the Canadian listed renewable energy company experienced a share price increase of 5%. The stock was upgraded by the Bank of Montreal to "buy" from "hold" which stated the company held "one of the highest-quality renewable portfolios" under the bank's research coverage. In Europe, Encavis, the German listed onshore wind energy company, rose 4.8% to its highest in more than 19 years after Bankhaus Lampe raised its target price for the stock to €11.20 from €10.50 following the presentation of new financial targets for 2025. In Asia, Infratil, a New Zealand listed renewables and infrastructure asset owner, continued to see strong share price performance following a material upward revaluation of Canberra Data Centre. The investment team reduced exposure to the UK taking profits from the holding in Foresight Solar Fund Limited.

The Fund remains overweight in global renewable energy and is well positioned to benefit from exposure across multiple developed markets, energy markets and asset types. In the eight months since launch, the Fund has outperformed its Investment Objective of CPI+3% over the medium term and has done so with lower volatility than global and UK equities. The Fund's foreign exchange performance relative to Sterling during January was -0.72% and -3.06% since inception. The Fund performance since inception is 20.22% compared to 10.17% for global equities priced in Sterling (FTSE All World Index, GBP) during the same period.

The Fund continued to see steady fundraising during the month, with net inflows of £15.5m, driven by investor demand for diversification from uncorrelated assets and sustainable investment themes.

Investment Manager Profile

Nick Scullion, Lead Fund Manager

Nick is the Head of Foresight Capital Management, the Lead Fund Manager for GRIF and is Co-Fund Manager for FP Foresight UK Infrastructure Income Fund (FIIF). With over nine years' experience, Nick is responsible for managing the fund and the growth of Foresight's open-ended fund business.

Mark Brennan, Co-Fund Manager
