FOR A SMARTER FUTURE

FP FORESIGHT GLOBAL REAL INFRASTRUCTURE FUND

Factsheet | 31 July 2020

Actively managed by the award-winning Foresight Capital Management, the FP Foresight Global Real Infrastructure Fund (“the Fund” or “GRIF”) invests in global real infrastructure.

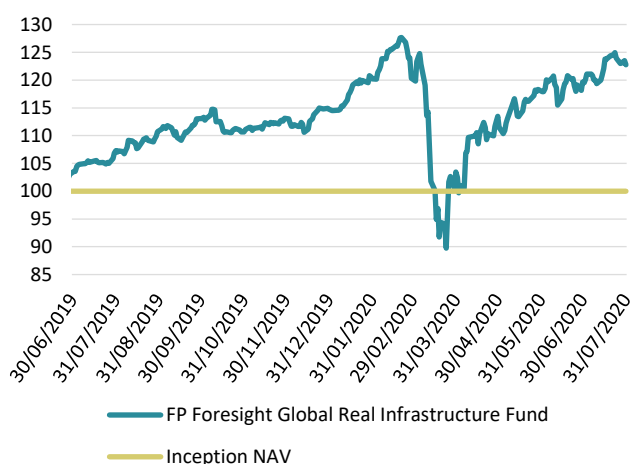

INVESTMENT OBJECTIVES

- To provide growth of more than 3% per annum above the rate of UK inflation (CPI) over any five-year period and provide investors with quarterly dividend distributions.
- To invest only in companies that we believe deliver a net social or environmental benefit and meet the principles of the United Nations Global Compact.

INVESTMENT PHILOSOPHY

- Invest exclusively in the publicly traded shares of companies that own or operate real infrastructure or renewable energy assets across the world.
- Provide investors with a globally exposed portfolio with a low correlation to equity market cycles and which delivers a steady return.
- Invest in companies that provide essential services allowing the global economy to function in a sustainable manner while also addressing changing social and demographic requirements.
- Target an underlying portfolio characterised by long-term contracts with highly credit worthy counterparties and which benefits from inflation linkage.
- Regularly monitor the portfolio companies against a predefined set of criteria to ensure they continue to meet our sustainability requirements.

FUND PERFORMANCE (SINCE INCEPTION)

RISK AND REWARD

The Fund has been classified “5” on the Synthetic Risk and Reward Indicator in the Key Investor Information Document.

¹ Yield is calculated using last 4 dividends for Group 1 income unitholders. Figures updated quarterly.

MANAGEMENT COMMENTARY

The Fund delivered a positive total return of 2.61% (net of Foreign Exchange) in July. Year to date performance remains very strong, with a total return of 6.99%, maintaining a material outperformance when compared with global equities (FTSE All World USD -1.22%) and UK equities (FTSE All Share -20.40%). Since inception, the Fund has delivered a 22.77% total return, outperformance of 10.93% vs. global equities and 39.28% vs. UK equities.

The overarching themes in July were the stability of portfolio company operations and the resilience of dividends. Fund performance continues to benefit from the ongoing shift to sustainable assets and continues to deliver significant and tangible social and environmental benefits.

During the month of July, the Fund experienced net inflows of £42m. The proceeds were used to rebalance the portfolio, taking advantage of value based opportunities where appropriate. An example of this was the new position taken in Transurban Group, a Australian road operator with multi-decade government concessions and high levels of inflation linkage with deflation protection. International Public Partnerships, a UK infrastructure company, was also introduced to the portfolio based on the quality of its asset base and multi-decade contracted income streams from government counterparties. US Government infrastructure owner Easterly Government Properties became the Fund’s top holding during July after a detailed due diligence highlighted their continued financial strength, defensive performance and strong potential for positive Q2 2020 results.

Renewable Energy remains the Fund’s largest sectoral exposure given the pervasive tailwinds supporting the global decarbonisation agenda. During July, all of the Fund’s investments in Renewable Energy and Enabling Assets delivered positive total returns. Three of the Fund’s top 10 portfolio companies delivered double digit share price growth during the month (Hannon Armstrong Sustainable Infrastructure +17.28%, Innergex Renewable Energy +15.17% and NextEra Energy Partners +14.20%).

Sterling appreciated during the month of July from \$1.24 vs. the USD at the start of the month to \$1.31 at month end. During the month, the Fund continued to deliver on the investment objective of CPI+3% annually over the medium term despite adverse currency movements in the period.

FORESIGHT GROUP

Foresight is a leading independent infrastructure and private equity investment manager which has been managing funds on behalf of institutions and retail clients for more than 35 years. Foresight has c. £6.5 billion¹ of assets under management across a number of funds, including listed vehicles, Limited Partnerships, Enterprise Investment Schemes, Venture Capital Trusts, Inheritance Tax Solutions and Open-Ended Investment Companies.

Funds managed by Foresight include the ownership of more than 150 solar projects around the world, 26 onshore wind projects, 40 bioenergy and waste facilities in the UK and Europe and 26 reserve power assets. Foresight also invests in the wider infrastructure sector including hydro, battery storage and waste management and wastewater treatment projects. Together our projects have a generating capacity of over 2 GW, enough clean renewable electricity to power more than 860,000 UK homes every year. Headquartered in London with seven further UK regional offices, Foresight also has international offices in Luxembourg, Rome, Seoul, Sydney and Madrid.

¹ Following completion of the recent announcement of Foresight Group's acquisition of Pensions Infrastructure Platform, total AUM will increase to £6.5bn.

Important Notice: This has been approved as a financial promotion for the purposes of Section 21 of the Financial Services and Markets Act 2000 by Foresight Group LLP ("Foresight Group"). Foresight Group is authorised and regulated by the Financial Conduct Authority (FRN 198020). Its registered office is The Shard, London SE1 9SG. FundRock Partners Limited is the authorised corporate director of the Fund and Foresight Group is the investment manager. We recommend investors seek professional advice before deciding to invest. Investors must read the Fund Prospectus ("Prospectus") and Key Investor Information Document ("KIID"), dated June 2020, before making an investment decision. The opportunity described in this document may not be suitable for all investors. Attention should be paid to the risk factors set out in the Prospectus. Words and expressions defined in the Prospectus shall have the same meaning in this Investor Factsheet. Foresight Group does not offer investment or tax advice. The value of an investment in the Fund, and any income from it, can fall as well as rise. Investors may not get back the full amount they invest. Past performance is not a reliable indicator of future results. Personal opinions may change and should not be seen as advice or a recommendation. There are a number of other risks connected to an investment in the Fund, including (but not limited to) counterparty risk, liquidity risk and volatility. These risks are explained in the Fund Prospectus. The Fund focuses on the global renewable energy and infrastructure sectors only and will have a less diverse portfolio than the average OEIC. We respect your privacy and are committed to protecting your personal data. If you would like to find out more about the measures we take in processing your personal information, please refer to our privacy policy, which can be found at <http://www.foresightgroup.eu/privacy-cookies>. **Capital is at risk.
