

Actively managed by the award-winning Foresight Capital Management team, the FP Foresight Global Real Infrastructure Fund (“the Fund” or “GRIF”) invests in global real infrastructure and renewable energy companies.

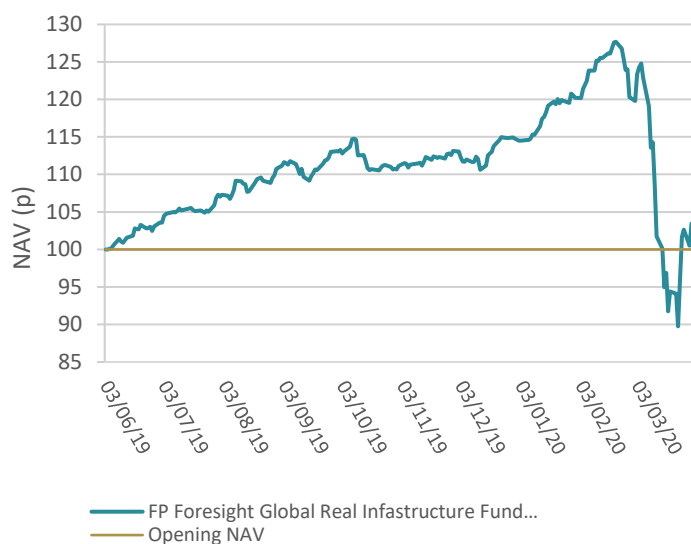

Investment Objectives

- To provide growth of more than 3% per annum above the rate of UK inflation (CPI) over any five-year period and provide investors with quarterly dividend distributions
- To invest only in companies that we believe deliver a net social or environmental benefit and meet the ten principles of the United Nations Global Compact

Investment Philosophy

- Invest exclusively in the publicly traded shares of companies that own or operate real infrastructure or renewable energy assets across the world
- Provide investors with a globally exposed portfolio with a low correlation to equity market cycles and which delivers a steady return
- Invest in companies that provide essential services allowing the global economy to function in a sustainable manner while also addressing changing social and demographic requirements
- Target an underlying portfolio characterised by long-term contracts with highly credit worthy counterparties and which benefits from inflation linkage
- Actively manage the portfolio to maximise income over the long term
- Regularly monitor the portfolio companies against a predefined set of criteria to ensure they continue to meet our sustainability requirements

Fund Performance (Since Inception)

Details of the Fund

Fund Name:	FP Foresight Global Real Infrastructure Fund
Fund Type:	Open-Ended Investment Company
Investment Manager:	Foresight Group LLP
Regulatory Status:	FCA Authorised
IA Sector:	Global
Launch Date	3 June 2019

Management Commentary

March saw widespread disruption and heavy selling in markets due to the ongoing coronavirus pandemic and associated shutdowns of large parts of the world economy.

During March, the Fund's performance (net of foreign exchange) was -13.96% compared with the FTSE All World Index -20.85%. This relative outperformance versus global equities in March (+6.89%), year to date (+10.89%) and since inception (+13.63%) supports the Fund's investment thesis and the predictability of revenues from real infrastructure and the strength of counterparties.

Two of the Fund's top three holdings delivered positive returns. US real estate group Easterly Government Properties delivered +7.83% and wind portfolio Greencoat Renewables delivered +2.44%. UK listed globally diversified holding, BBGI also delivered a notable positive monthly return of 3.21%.

Throughout March, the Fund's investment team spoke to portfolio companies seeking updates on performance, the security of revenues, counterparty exposure and liquidity. The overarching message was that the companies are well positioned and are continuing to operate their assets, which are largely insulated from the crisis due to their critical nature.

Sterling was volatile during the month. After reaching a high of 1.31 vs. the dollar, it fell to 1.15 less than two weeks later. Sterling was trading at 1.24 at month end. All quoted performance figures include currency impact.

March has shown the importance of an active management approach and that the fundamentals of the sector and companies targeted remain solid. Valuations are now more attractive on both an absolute and relative basis when other industries are likely to suffer an extended period of disruption due to demand shortages, broken supply chains and changes in consumer behaviour.

The Fund continued to experience net inflows in March.

Investment Manager Profile

Nick Scullion, Lead Fund Manager

Nick is the Head of Foresight Capital Management, the Lead Fund Manager for GRIF and is Co-Fund Manager for FP Foresight UK Infrastructure Income Fund ("FIIF"). With over nine years' experience, Nick is responsible for managing the fund and the growth of Foresight's open-ended fund business.

Important Notice: This has been approved as a financial promotion for the purposes of Section 21 of the Financial Services and Markets Act 2000 by Foresight Group LLP ("Foresight Group"). Foresight Group is authorised and regulated by the Financial Conduct Authority (FRN 198020). Its registered office is The Shard, London SE1 9SG. FundRock Partners Limited is the authorised corporate director of the Fund and Foresight Group is the investment manager. We recommend investors seek professional advice before deciding to invest. Investors must read the Fund Prospectus ("Prospectus") and Key Investor Information Document ("KIID"), dated June 2019, before making an investment decision. The opportunity described in this document may not be suitable for all investors. Attention should be paid to the risk factors set out in the Prospectus. Words and expressions defined in the Prospectus shall have the same meaning in this Investor Factsheet. Foresight Group does not offer investment or tax advice. The value of an investment in the Fund, and any income from it, can fall as well as rise. Investors may not get back the full amount they invest. Past performance is not a reliable indicator of future results. Personal opinions may change and should not be seen as advice or a recommendation. There are a number of other risks connected to an investment in the Fund, including (but not limited to) counterparty risk, liquidity risk and volatility. These risks are explained in the Fund Prospectus. The Fund focuses on the global renewable energy and infrastructure sectors only and will have a less diverse portfolio than the average OEIC.
