Launched in December 2017, FP Foresight UK Infrastructure Income Fund (“the Fund” or “UK FIIF”) is an actively managed, Open-Ended Investment Company (“OEIC”) with daily dealing.

INVESTMENT OBJECTIVES

- To manage the Fund actively and take advantage of opportunities in the renewable energy and infrastructure sectors.
- To provide an annual income, targeting 5% to be paid through quarterly dividends, with the possibility of capital growth.

INVESTMENT PHILOSOPHY

- Adopt a “Fund of Investment Companies” approach, investing in listed investment companies.
- Achieve a high degree of diversification across the renewable energy and infrastructure sectors and underlying asset exposure.
- Target an underlying portfolio characterised by long term contracted revenue streams often with a high degree of inflation linkage.
- Invest in companies that demonstrate low volatility and less correlation to market cycles than other equities.
- Provide investors with a sustainable yield through quarterly dividend distributions.
- Active management of the portfolio to maximise income over the long term.

MANAGEMENT COMMENTARY

In December 2020 the Fund celebrated its third anniversary and concluded another year of strong performance. Since inception the Fund has delivered a total return of 30.1% and a yield of over 5%. During a calendar year that has proved challenging for equity markets, the Fund has outperformed the FTSE All Share by 8.8%, providing investors with a reliable source of income and low correlation.

During December 2020 markets were comparatively subdued following the increase in activity seen in November 2020. Against this backdrop the Fund delivered a return of 1.59% compared with 1.81% from the FTSE All Share.

Contributions from the Fund’s various positions were relatively even during the month with two notable outperformers. Hannon Armstrong Sustainable Infrastructure (“HASI”) continued its good run of performance, delivering a 17.6% total return. HASI’s strategy is focused on financing climate change solutions and it remains well placed to benefit from the improving policy and investment environment that is likely to be nurtured by the Biden administration. International Public Partnerships (“INPP”) demonstrated positive investment progress, being awarded preferred bidder status for the East Anglia One Offshore Wind Farm transmission project. This £90m investment will finance the infrastructure that connects electrical supply to the mainland and provides a 21-year contracted stream of revenues to INPP, with no exposure to production or price.

The Fund ended December 2020 with a NAV of £532.7m.
